UNDER MONTERING

Under montering kommer du att stöta på olika ikoner för olika produkter. Se nedan för mer information:

Du kan använda siliconsprej för panelerna lättare skall glida in i profilerna. Spreja inte på panelerna.

Använd en gummiklubba om nödvändigt.

Se till att du tar bort täckande plastfilm från båda sidor om panelen.

Alla paneler stämplade med orden "THIS SIDE OUT" måste vändas utåt för att skapa ett fullt UV-skydd. Avlägsna klistermärken allteftersom panelerna är låsta på plats.

Denna ikon anger att installatören bör befinna sig inne i produkten.

Denna ikon anger att installatören bör befinna sig utanför produkten.

Steg markerade med streckade konturer gäller endast tillägg. Några av stegen är irrelevanta för montering av en enda produkt. Vid montering av en produkt eller en utökning av produkten kan en del bli ett överskott av delar.

Dessa två ikoner anger om du behöver dra åt skruv eller inte. I vissa steg kan emellertid temporär åtdragning av ett par skruvar vara nödvändigt för att förhindra att en profil faller ner. Drag åt alla skruvar islutet av monteringen.
